- Projects can be conducted in teams of **up to five people**.

Course Logistics – Grading Policy

- Evaluation:
 - Criteria:
 1. Problem Definition (50%): Originality/ Concreteness / Soundness of the problem
 2. Technical maturity (50%): Dataset, model (method), Evaluation
 - Evaluation:
 1. Project Proposal (10%):
 2. Project Presentation (20%):
 - Professor & TA (70%)
 - Peer assessment (30%)

Proposal Contents

1. Business Value

- 1.1 Background
- 1.2 Problem Definition & Value Proposition

2. Available Data

- 2.1 Data Acquisition
- 2.2 Data Review

3. Formulation

- 3.1 Choice of Algorithms and Rationale
- 3.2 Input & Output Variables
- 3.3 Expected Challenges and Alternatives
